

Next Generation Nationwide Broadband Network (Next Gen NBN) is Singapore's nationwide ultra-high speed all-fibre network. Deployed nationwide to all homes and offices, including schools, commercial properties and hospitals, Next Gen NBN offers broadband speeds of up to 1 Gigabit per second (1Gbps). Users can enjoy a richer broadband experience over the Next Gen NBN, at prices comparable to existing connections.

How Do You Sign Up?

When fibre has been rolled out to your home, you can approach and sign up for Next Gen NBN fibre services with any of the Retail Service Providers (RSPs). They will arrange for the necessary equipment to be installed, and activate your Next Gen NBN connection.

Hand-on Experience At iExperience

The Infocomm Experience Centre (iExperience) takes you on a tour to experience how Next Gen NBN can transform the way you live, work, learn and interact. Immerse yourself in a world powered by Next Gen NBN through interactive and engaging exhibits. Find out more about home networking options and solutions here.

90 Bras Basah Road

FINALLY, WORK AND FAMILY COME TO A BALANCE.

NEXT GEN NBN.
JUGGLING WORK AND FAMILY
HAS BECOME SO MUCH EASIER!

With Next Gen NBN, you can enjoy the benefits and possibilities brought by the all new fibre network.

Multi-users, Multi-task

Everyone in the family can now concurrently get connected doing what they enjoy without affecting one another's user experience. With Next Gen NBN, everyone gets connected at the same time without any compromise on performance!

Work from Home

Working from home has never been easier as Next Gen NBN allows you to work at home, enjoy higher access speeds, and meet colleagues and partners over high quality video-conferencing.

Engage in Interactive Services

For families with children, the higher speeds delivered over Next Gen NBN means the young ones can now engage in different modes of interaction with teachers at school and peers.

Next Gen NBN-Enabled Services

There is a wide range of broadband access plans available in the market, offering different packages catered to different needs. Some of the Next Gen NBN-enabled services you may find relevant include:

- Higher speed access to Internet
- Interactive Internet Protocol Television (IPTV)
- High quality video-conferencing
- High speed online gaming
- Remote online education
- Cloud computing and services
- Software-as-a-Service
- Online storage
- Secured Virtual Private Network (VPN) access

The ultra high bandwidth gives us freedom to engage in our interests anytime. Taking turns to go online? Not anymore!

What You Should Know?

Home Networking

To distribute broadband connectivity within the home, the commonly available home networking options are:

- Wired/Wireless router
- Structured network cabling
- Coaxial Home Networking
- Powerline Networking

For more information, please visit www.NextGenNBN.gov.sg/HomeNetworking.

Technical Support

You can approach your preferred RSP, which will be your single point of contact for any service enquiry or after-sales service technical support.

You can visit www.NextGenNBN.gov.sg to learn more about Next Gen NBN or approach any of the RSPs to find out more about the Next Gen NBN services being offered.
